

Additional Information – Australian Admission and Student Visa Applications

*Note: The following information has been supplied as **Additional Information** in support of my **Australian Application for Admission and Student Visa Application**.*

My reasons for choosing to undertake the course of study specified in my admission and student visa applications:

Bachelor of Exercise and Sport Science will qualify me for a wide range of careers. As more and more people have realised the importance of exercise for our health, the career opportunities for exercise scientists are expanding. So, i have choose this course as i found it interesting as well as fruitful. Moreover, there will be plenty of jobs in upcoming future in this field and i will get one easily with handsome salary package.

My reasons for choosing the education provider specified in my admission and student visa applications:

At the CDU, staff make a solid effort to give understudies the most ideal learning and exploration environment. Moreover, Academic staff there will assist me with dominating the abilities I want to have a genuine effect on the planet. CDU delivers a great global standing in educating and examination understudies rate their experience exceptionally due to their little classes and cooperation with instructing staff. All the above points become the reasons I choose this university over others.

My reasons for choosing to study in Australia rather than in my home country:

Studying in Australia is extremely beneficial for me and my career prospects. Not only the country is known for natural wonders and beaches but also effective education system and outstanding colleges and universities. Australia is among the most preferred study destination in the world where over 7, 00,000 international students are currently studying. The country has seven cities, Melbourne, Sydney, Brisbane Canberra, Adelaide, Perth, and Gold Coast, which are even recognized by QS ranking agency as the best cities in the world for studying. There are over 3,000 scholarships, grants, and bursaries that Australian institutes award to international students, which can help support my studies in Australia.

Relevance of my selected course of study in Australia to my previous academic and/or employment background:

I have done Senior Secondary in Humanities stream with subjects like PHYSICAL EDUCATION & SPORTS. From begning itself, I have keen interest in this subject and thats the reason i choose to study Bachelor of Exercise and Sport Science in Australia for my further studies. As making my passion my career will be the best thing i can do to secure my future.

Relevance of my selected course of study to my future educational and/or career plans:

In my home country, careers are available in a variety of public and private sector settings including:
sporting organisations,
gyms and fitness organisations,
professional sporting teams,
education and health promotion,
clinics, academia.

So, after graduating from this course, I will easily find jobs in any above mentioned field in India.
