## LETTER OF RECOMMENDATION

Vishal Singh is an exceptional personality from the Government College Indora, Himachal Pradesh University, known for his punctuality and discipline.

It is my pleasure to write this recommendation letter in support of Vishal Singh who is applying for further studies at your esteemed University. I have known Vishal Singh from the year 2015-2018 as my student. I have taught him subjects like Differential Calculus, Real analysis, algebra, Differential Equations etc. in which he scored decent grades.

Throughout his course of study Vishal Singh has shown a great interest towards practical learning skills and techniques as he always forced solutions to complex problems in real world. Differential Calculus and Real analysis are the topics he generally excelled in. Apart from that his fundamental knowledge in Geometry is also a noteworthy mention.

We engaged in several course related discussions during which he confidently talked about his aspirations for higher education. I was also involved in his Project "Mathematics with real life" in which he explained the concepts using local examples in a very practical manner. Vishal Singh along with his team has always outperformed in terms of presentational and communicational skills and never ceased to make the topic interesting.

Added to this, I was his Class In charge (CI) and have observed and monitored him at his close quarters. The best part about him is the respect that he shows towards his tasks and the individual attendance he shows at the same time. He is a self-reliable and confident person who values small things in life and I definitely believe that he is destined to reach great heights.

I believe that his analytical skills and endurance will contribute significantly to your institute and vehemently recommend his name for further studies at your University.

Sincerely

Dr. Pankaj Kaushal  
Designation: Assistant Professor  
H.P.E.S. (Class-I Gazetted)  
Govt. Degree College, Indora (H.P.) India.
