LETTER OF RECOMMENDATION

It is my great pleasure I strongly recommended his name for higher studies in abroad for admission in any international institute. I watched Ajay Verma grow into an outstanding student who excels in both academic and personal pursuits.

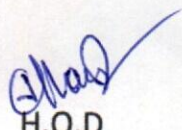

As teacher, I witnessed his extraordinary learning strength & maintain a friendly environment first hand, His projects works and activities were particularly impressive. In it he was always our outstanding student. Ajay Verma academic accomplishments are rived only by his personal strength.

He was the growing student with a positive attitude of my class. He was weltered by his peers, as well as all by those who have had the pleasure of teaching him. Please feel free to contact me if you have any question regarding has character or past academic work.

I also pray to god to grant him each and every success in all walks of life.

Sincerely
