LETTER OF RECOMMEDATION

I bring me tremendous joy and happiness as I introduce Miss Rupinder Reena to you. I have been knowing her from ten years. Rupinder Reena has been under my close tutelage during her high school. She has impressed me with her strong analytical and logical thinking. She is one of the brilliant student I have come across. Her understanding of the computer concept certainly helped her to enhance her performance in the class. She has a good blend of theoretical acumen and practical adaptability what impressed me most her industrious nature, sincerity to widen her knowledge base and showing high probity towards work. One aspect of Rupinder Reena's personality is her ability to perform well continuously without a break at peak operational and load levels. She is capable of putting in long hours unto deliberating over issues, and taking answering decision. This passion held her in good marks in all subjects. Over the years I have observed Rupinder Reena, one major change that I have noticed I her is big improvement I have seen in her level of maturity and her ability to comprehend.
