Letter Of Recommendation

This is a great pleasure for me to recommend **Ms. Deepika Dadhra** for pursuing his further studies in your esteemed institution. I have known her since 2010, when she took admission in **LLB 3yr course (2010 – 2013)**. Right from the beginning she always maintained a very respectful attitude towards her teachers and a good rapport with her fellow students.

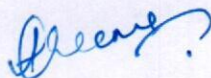

I have known her as a dedicated, hardworking student with excellent communication skills. Her active participation in class and enthusiasm is commendable. She has always attended her lectures with prior presentation about the topic. She has overtime exhibited a logical and analytical thought process and a sound understanding of the subject matter.

During her course, she showed exceptional leadership qualities by representing her class and department at various platforms. She is a person with clear vision and full confidence that helped her to leave a great impression on all the faculty members in the university.

She was also a **Para – Legal volunteer** under **Punjab Legal Services Authority** from 2012 to 2013. I have seen her performing all her responsibilities remarkably under the program. Further to this, she has gained legal exposure by gaining excellent knowledge through internship with well-established legal proponents. As a person, she is honest and confident. She has enviable work ethics and impeccable integrity.

I wish Deepika Dadhra all the success for her future and she will be an asset to any institution that she joins for her higher education.

Sincerely,

Prof. (Dr) Aman A. Cheema
