Why RMIT:

In 300 words or less, tell us why you have chosen RMIT over other universities in Australia and what do you know about RMIT?

After making my mind to pursue my Bachelor degree from Australia, I searched for different universities in Australia that are offering similar course which I wish to pursue. In my search I found that many universities like SCU, Latrobe university, RMIT university, Macquarie university are providing the similar course. I compared these universities on different variables like fees structure, course structure these universities are offering to their students etc. and after considering all these factors I choose RMIT university for my further study. I am very inspired by the profile of RMIT university. RMIT university has a very good ranking. It is currently ranked in the top five universities of Australia. It has reputation of excellence in practical education which is essential for everyone, who want to make their future bright. It provides wide range of undergraduate, postgraduate and highest research degrees program to international students. Study at this university will provide all the skills and knowledge to make fruitful career ahead. By choosing RMIT, I feel that I am choosing a global university recognised for leadership and innovation in technology, design and enterprise.

Section 6

Australia and Melbourne:

In 300 words or less, tell us why you have chosen to study in Melbourne, Australia over other countries?

After deciding to move overseas for my bachelor degree, I researched about the many countries and the program to find the most suitable course for me that provide me fruitful career. There are various countries around the globe like Australia, USA, Canada, UK etc which offers quality education. Though these countries are giving the best educational facilities to international students, but I weighed other factors like living conditions, employment options, weather conditions and quality of education and I found that Australia fulfills all my conditions. I searched about Australia on Internet and I found that Australia ranks among one of the study destinations around the world and provides global exposure that would be a great asset for better opportunities to advance my career. Australian qualification are globally recognised and universities in Australia are renowned for their research and training methodologies.

Section 7

Education and Circumstances in Home Country:

In 200 words or less, tell us why you don't want to study in your home country?

I searched for different institutes in my own country that are offering similar course programs and I want to study. I found that there are some institutes like GNDU, Punjab technical university, Lovely professional university etc are offering similar courses. But in my previous study I have noticed that there are many limitations of Indian education like Indian institutes give more stress on theoretical knowledge so there is lack of practical skills. In addition to this, classroom experience is limited to lectures only there is not any class activity.

Section 8

Salary and Financial Benefit:

In 200 words or less, tell us about your salary expectation, how much do you expect your monthly salary to be when you return home with an Australian qualification? How does this compare to the salary you would receive if you studied in your own country?

On completion of this course and after gaining international experience I will come back to my home country as there is a great demand of candidates having International qualifications. My international qualification will help me to get good jobs in my home country and anywhere around the world. I can join many reputed institutes and organizations in my own country, where I can expect good salary package.

Career Progression:

In 300 words or less, tell us about your career aspirations and future plans after you graduate from this program.

After finishing my degree and gaining international skills if I will get a chance to work in Australia, definitely I would like to get some experience and knowledge in Australia. There are various career options available in my home country for me after completion of my bachelor degree. I can work in all sectors of Information technology, computer science, software engineering. I can expect a handsome salary package of Rs. 8 to 9 Lacs per annum.

Section 10

Post Study Plan:

In 100 words or less, tell us where you intend to permanently live and work when you complete your degree. If you intend to work temporarily in Australia once you complete your degree, which visa subclass you intend to apply for to work in Australia?

After completion of this degree, I will work in Australia for the period of my post study work visa and after that I will come back to my home country. India is a developing country and there are many opportunities available in India. My international education experience will give me edge over other candidates and I will surely get good job that will match my profile. Beside this, all my family members and relatives are living in India and I can not live whole life separate from them as I am very much attached to all my family members and relatives. Also I have promised my family that I will return back to my home country after my study ends and I have to keep my promise. Along with that they are supporting me in my study abroad.
