

Statement of Purpose

Bath Spa University

Ma Educational Leadership and Management

INTRODUCTION:-

My name is **Amandeep kour**. I born and brought up in the Jammu I am presenting my candidature to study in your prestigious University. I have completed my Master of Arts in Education in 2016 with 6.58 CGPA. I then I joined as a teacher at New National HR. SEC.SCHOOL from 01/09/2016 and till now I am working there. I found emotional attached with teaching profession and now I want to make my career only in my area of interest. I wish to study from international level and I believe that International education will ultimately give me the skills to earn handsome salary. I started exploring options which are available to me. I have personally seen a lot of schools around me struggling with poor management due to lack of able principals. Seeking my career goals, I choose to study **MA Educational Leadership and Management** at **Bath Spa University**. This course will provide me the advanced professionally oriented studies for practicing educators, in-service requirements of teachers and administrators. I will study about Leaders and Leadership in Educational Contexts, Theories of Organizational Change, Leadership of Curriculum and Instruction, Introduction to Educational Management. I am blessed by the career goals to be in the education industry and when today I look back I feel self-righteous of my choices. The experience in education sector has also widened and accelerated my zeal to grow in the same to the next ladder.

REASON TO CHOOSE UK:-

As you are aware by now my reasons for opting for a Master degree through my statement of purpose; you can well imagine that despite working for several years I am at the same profile though I have grown in terms of experience and required skill sets; yet there is some kind of ambiguity over my desired growth and promotion in near future. For this purpose I directed my research and course options on courses available overseas.

I strongly believe and advocate the fact that thinking from a long term career perspectives an overseas education experience and the exposure over studying in India certainly brings a lot of positive benefits in a candidates profile or CV.

It's not an easy task to choose a foreign country for my higher studies, especially when I have beautiful options to choose from; UK, Canada or Australia. But it's not just choosing one country over another based on my likes and dislikes but based on proper research that I have done before. I wanted a real transform for myself and for my career outlook, it was really necessary to think of the advantageous options.

REASONS TO CHOOSE AT BATH SPA UNIVERSITY:-

This university made a real impact on me because of the warm and friendly environment they offer and which is visible through their website also. The pioneer reason which attracted me the most towards the university was their course structure which included education leadership component. I am going to enroll in the **MA Educational Leadership and Management**. I will enhance, hone and develop knowledge, skills and discernment as an educational leader and manager by undertaking sustained professional learning and development through a master's degree those will impact upon my leadership practice. This course will provide me a contemporary and academically sound, yet practice-oriented, form of sustained professional development

My course at **Bath Spa University** will enhance my skills in areas such as mentoring new educators, managing curriculum and assessment, supporting staff development, and leading organizational change. I will also build the skills to study and solve difficult issues in a rapidly changing educational climate.

Choosing to contemplate abroad and picking your examination supplier is initial step and choosing the right college or school in the correct nation. Learning at **Bath Spa University** would give understudies a rich and various scholarly and social experience set among an extraordinarily UK grounds prestigious. **Bath Spa University** of brings a new, present day, vocations engaged and worldwide viewpoint to advanced education. Showing resources in at **Bath Spa University** are magnificent, experienced and up-to-dated. University is magnificent in all the zone of training. This college offers forefront offices and hardware, from libraries to workshops, all to upgrade your learning experience. That is the reasons I pick at **Bath Spa University** for my higher investigation.

WHY CHOOSE MA EDUCATIONAL LEADERSHIP AND MANGEEMNT

I am going to study **MA Education Leadership and Management** program this course will engage me with theory as well as national and international educational practices, enabling me to connect my learning with my own experiences, broaden my knowledge and enhance my skills. Even though I have a bachelor degree in hand and years of experience; I am still seeking additional training to become a more creative leader for the education community. Having associated with education industry for such a long time I advocate the fact that Education industry is no longer just confided to teaching. There are numerous growth opportunities for people associated with the education industry.

I also do not just want to keep working at the capacity of a teacher and imparting same lectures to various classes rather I want to work at higher positions preferably for the managerial roles.

Through disciplined dialogue and the sharing of ideas and information, I will enrich my knowledge, dispositions and skills in education and develop my agency as a leader. A research component also provides an opportunity to develop research skills as a basis for further professional enquiry, especially in the field of educational. This degree adding various skills like: Creativity, Confidence, flexibility, Time management, organizational and teaching skills with an international viewpoint, which will help me to take up wide range career opportunities in education sector. **MA Educational Leadership and Management** programs keep me up with the modern knowledge and apply every new bit of it to make the art of teaching, management, better and more effective. My long-term career goal is to set up own educational establishment and I am constantly working towards to that goal.

I will study the course modules-

Policy and Curriculum Development

Leading Learning Communities
Advanced Mentoring
Advanced Coaching
Critical Enquiry and Reflection
Dissertation

CAREER OUTCOMES AFTER THIS MASTER DEGREE:-

I really wish to make a change towards the transformation of education standards in my parent country and studying in **Bath Spa University** can help me realize this motto of mine. I can also be a deserving candidate to join education departments under the government which are directly involved in the policy making for education and many more and earn substantial salary. After completing my master degree I will be well equipped to find opportunities in primary and secondary schools, community colleges, universities, technical schools, governmental and adult schools, filling positions such as: Principal, **District Administrator**, School coordinator, **Dean of Students etc** I can also grab opportunities as executive positions in top public universities which are paid high in India, Apart from this executive position such as district education administrator are open for me; I can also be a deserving candidate to join education departments under the government which are directly involved in the policy making for education

I would be much better off to be a leader in education industry and give my contribution towards producing more intelligent and intellectual people for the future and generations to follow. I hope that you will consider my application and will grant me the chance to pursue my higher education at your university. I will try and give my best and grab all the knowledge and skills from the course I am applying for, so that I can achieve my goals, which aspire for.

Thanks
